My dear

How much do you get for your walnuts a pound? I would like 10¢ if the price is not too high. I would pay as much as you get from anyone else at least, express C O D, but I first want to know how much you get for them.

Hope you are all well.

Katherine

I think the nuts are good for Jack and I am going to have him eat as many as he wants.

If they are not more than 10c, send them right along.
